

It's the **Tube Packaging** that makes the first impression.

- **Quick lead times**
- **Low minimums**
- **Pre-production samples**
- **Quality decorated tubes**
- **Competitive pricing**

SIDNEY can deliver as few as 3,000 printed / labeled tubes in weeks. Whether you need 3,000 or million, **SIDNEY** offers high quality tubes and tube printing at competitive prices.

SIDNEY's tube packaging is not out of reach for the smaller manufacturer. Custom color tube body and custom color cap can also be purchased.

Key Attributes

- Squeezable with bounce back to retain original shape and appearance for the useful life of the product.
- Broad range of sizes for fills from 20ml to 200ml.
- Available virtually any color in opaque and tints.

Process

- Plastic pallets are melted as they go through an extruder forming a single layer or multi-layer continuous sleeve.
- The sleeve is then cut to the desired length, loaded onto a mandrel where the head is injected or compression molded and welded to the sleeve.
- The tube is then offset printed with colors and coated.
- The closure is then applied to the tube.
- If the tube is to be post decorated, it is then forwarded to the post decoration area for hot stamping.

Decorations

- Offset Printing
- Hot stamping of Foils
- Labels on Tube

Materials

- **Mono-Layer-LDPE:** (Low Density Polyethylene) Fully flexible tube suitable for most products with non active chemicals.
- **Mono-Layer-HDPE:** (High Density Polyethylene) Moderately flexible tube suitable for most products with non active chemicals.
- **5-Layers:** This is fully flexible tube which can replace laminate tubes for products with volatile content like toothpaste, or sunscreen. It can protect content from volatilization and oxidation because of its structure.

The Ideal Package

- ✓ **Consumer-preferred and easy to use**
- ✓ **Economical**
- ✓ **Ecological and safe**
- ✓ **Attractive**
- ✓ **Easily identifiable**
- ✓ **Hygiene**

Taking into account purchase price per unit, filling, warehousing and transportation, the tube can be less expensive than a bottle, jar or pump.

Consumers can appreciate that over 90% of the product in a tube can be easily dispensed and used.

Market studies have confirmed consumers prefer tubes! It's easy to store, easy to use, portable, durable and attractive.
